I hope the 2019-2020 school year is off to a great start for all school corporations, and your students, staff, and board! The end of summer marks the start of a busy season of multiple events planned to support our ISBA members. In addition, there are other timely news and notes that I want to share with you here.

2019 Annual ISBA-IAPSS Fall Conference
The 2019 Annual ISBA-IAPSS Fall Conference is almost upon us. Registration is still open for those not yet registered HERE.

This premier conference, to be held on September 30-October 1, will spotlight programs, policies, and best practices regarding:

- Ushering in a New Era of Graduation Pathways and School Accountability
- Optimizing School Budgets and Financing
- Ensuring Safe, Secure, and Supportive Learning Environments for Hoosier Students
- Developing Educational Statesmanship
- Other Hot Topics

This is an excellent opportunity for professional development, continuing education, and board development. All attendees will either receive 25 CAP points (as a core meeting) for school board members or 9 PGP hours for administrators. Take advantage of this professional growth opportunity!

School Accountability Panel
The Indiana General Assembly debated legislation during the 2019 budget session that would have established the use of postsecondary performance metrics in the high school A-F accountability model. While that particular bill (House Bill 1404) died, a provision was added to House Enrolled Act 1002 (Public Law 143) to establish a School Accountability Panel to continue the discussion regarding which metrics to recommend to the State Board of Education and the legislature for inclusion in the high school accountability system. This Panel is meeting biweekly through October to develop its recommendations. To learn more about the composition of the Panel or to monitor the work of this body go HERE.

Budget and Financial Oversight Resource Guide
In June 2018 ISBA issued the first edition of the Budgeting and Financial Oversight for School Board Members: Resource Guide that included a monthly checklist of items school board members should review at board meetings each month. As an illustration of the checklist, here were the action items recommended for September and October:

September
- Adopt budget to approve appropriations, tax rates, three-year capital projects plan and five-year bus replacement plan.

(October 1 is last possible date to adopt budget.)
- Adopt additional appropriations or appropriation reductions for current year.
- Publish Notice of Adoption.
- Review August financial statements.

October
- Review financial and budget variance letter for quarter ended September 30.
- Review bank accounts and investments as of September 30.
- Submit ADM count to IDOE.
- Submit textbook expenses to IDOE by October 31 for February reimbursement.

The second edition of this resource guide will be issued within days following the Annual Fall Conference and will feature many updates and new sections (largely prompted by laws enacted in the 2019 session of the General Assembly) to support your essential work in adopting a sound budget for your school corporation. You will be provided access to a PDF copy of the full report via an email blast during the first full week of October.

Upcoming Events
Registration is also live for the ISBA Fall Legal Workshops and the Fall Regional Meetings/Dinner. Please see page 3 of this newsletter for more details and go to the Events page to register HERE.
Meeting Preparation
By Dr. Michael T. Adamson, ISBA Director of Board Services
madamson@isba-ind.org

Most of what is required to be a good board member revolves around his or her preparation for meetings. Surprisingly to some, it is not about available to speak with constituents or hear complaints, it is not about transparency, and it is not about understanding every statute encompassing public education. All of these things, and more, are important in their own right and should not be ignored; however, the board member who comes to each meeting prepared, both intellectually and mentally is well on the way to becoming a good board member.

The prepared member is that person who responsibly reviews the agenda packet as soon as it is distributed, paying particular attention to the decisions the superintendent and/or members of the administrative team are promoting. If there are points of clarification or other questions about the agenda, the responsible member will contact the superintendent at the earliest convenient time to ask questions and receive answers. On agenda items reflecting items not particularly brought forward by the superintendent, board members will consider them only if there is an administrative recommendation that accompanies them.

Likewise, if a member does not agree with the administrative recommendation for a particular item, he or she should notify the superintendent as soon as possible after receiving the agenda.

Recent Interpretations of the Open Door Law
by Lisa F. Tanselle, ISBA General Counsel ltanselle@isba-ind.org

The Public Access Counselor has issued two advisory opinions that involved school boards and allegations that the boards violated the Open Door Law. In one opinion, the Public Access Counselor believed that the school board violated the law by voting on an issue of “substance” without deliberation. In the second opinion, the Public Access Counselor concluded the school board did not violate the law when it amended its agenda the day of the meeting by adding a discussion item.

Doyle v. Duneland School Corporation, Formal Complaint No. 19-FC-20
On July 16, 2018, under an agenda item posted as Policy Updates Vol. 29 No. 1, the school board approved the first reading of proposed amendments to existing policies. Included in the updates was Policy 5111, which proposed to change the school corporation’s current policy on accepting nonresident students. The proposed change would disallow nonresident students from enrolling in the school corporation. The following month, again under an agenda item entitled, Policy Updates Vol. 29 No. 2, the board voted to approve the proposed changes to the policies. There was no discussion of any specific policy, including the policy on disallowing nonresident students to enroll in the school corporation. When a patron learned that the changes to the transfer policy had been approved by the school board, the patron filed a complaint with the Public Access Counselor. He alleged that the school board violated the Open Door Law by giving improper notice of the meeting and taking final action outside of a public meeting on Policy 5111. The Public Access Counselor noted a previous opinion of his, wherein he concluded that board members must deliberate on substantive items so that the Open Door Law is not rendered useless. In this case, since the transfer policy was one of substance and had generated significant public interest, the Counselor opined the board’s passage of the policy change, without any discussion, was contrary to the purposes of the public meetings law. Thus, the Counselor concluded that the board’s failure to deliberate on this item of substance violated the section of the law that prohibits taking final action by referencing an agenda number or item alone.

Charity Scott v. Indianapolis Public Schools, Formal Complaint No. 19-FC-19
A patron alleged that the school board violated the Open Door Law by adding an item of business to the agenda that had been posted 48 hours before the meeting. The board acknowledged that the board president added the item to the agenda at 1 p.m. the day of the meeting. The Public Access Counselor noted that the Open Door Law does not require a governing body to use an agenda, but if it does, the board must post the agenda at the entrance of the meeting location before the meeting. The Counselor further noted that there is nothing in the law that prohibits a governing body from amending an agenda. In the opinion of the Public Access Counselor, while meeting agendas are worthwhile endeavors, their purpose is not to strictly bind a board to the items listed. Thus, the Counselor concluded the board did not violate the Open Door Law by amending its agenda.

Guidance and Resources on a Comprehensive Positive School Discipline Plan
by Julie M. Slavens, ISBA Staff Attorney (jslavens@isba-ind.org)

The 2018 Indiana General Assembly passed a law (HEA 1421) requiring the Indiana Department of Education (IDOE) to provide school corporations with a model plan and resources to help school corporations develop their evidence-based plan for improving student behavior and discipline in their school corporation. The Act amended IC 20-26-5-32. The model plan and resources were to be developed by the IDOE and provided to school corporations prior to the 2019-2020 school year. The statute requires the model plan to reduce out-of-school suspensions and disproportionality in discipline and expulsions, and limit referrals to law enforcement and arrests on school property to cases where it is necessary to protect the health and safety of students and/or employees.

IDOE released its model plan in late spring 2019. The plan includes a template for a policy and provides information on procedures school boards and administrators should consider in addressing their positive student discipline plans, which include policies, procedures, and practices of the school corporation. This plan serves as a comprehensive tool for school employees to use to provide a safe, respectful, and trauma-responsive environment for all students, so it includes not only policy, but also other rules, procedures, and practices of the school corporation pertaining to student behavior and discipline.

The IDOE encourages school corporations to appoint a positive discipline coordinator and establish a school climate and equitable discipline committee. The IDOE resource explains the role and duties the school positive discipline coordinator may have and provides information on the role and make-up of the committee. Involvement of all segments of the school community is encouraged such as parents, students, community members, administrators, and local agencies to be a part of the committee. The main purpose of the committee and the coordinator is to review the positive student discipline plan and provide input on its components. The plan itself and its components are the responsibility of the local school board and school administrators.

The purpose of the IDOE model plan is to provide guidance and resources for use by a local school corporation to develop, review, and if necessary, update the policies, rules, procedures, and practices relating to student behavior and discipline and create a positive and safe learning environment for students. The model plan and resources document may be found at

IDOE has also developed a comprehensive resource guide for the development or review of a positive behavior system. It may be found at
