

INDIANA SCHOOL BOARDS
ASSOCIATION

THE INDIANA SCHOOL BOARDS ASSOCIATION

COMMITTED TO INDIANA K-12
PUBLIC EDUCATION

MISSION: TO PROVIDE OUR MEMBERS WITH EXCEPTIONAL PROFESSIONAL DEVELOPMENT, RESOURCES, AND ADVOCACY NECESSARY FOR EXCELLENCE IN SCHOOL BOARD GOVERNANCE.

ABOUT

As a nonprofit organization, ISBA provides professional development for public school board members, and supports the role of school boards throughout Indiana. We advocate for public education in the Indiana Senate and House of Representatives, provide seminars and materials for school board members, and host various events that provide opportunities for growth and collaboration among school board members, school administrators, and education organizations across Indiana.

SERVICES

BOARD SERVICES

Enhance your board experience through training and continuous education opportunities including workshops and services that focus on goal setting, conflict resolution, self-assessments, effective governance, planning support, and more.

LEGISLATIVE SERVICES

ISBA initiates and promotes legislation that is important to support K-12 public education. These services include lobbying on behalf of school boards at the State House, tracking bills related to education, and maintaining contact with and providing legislative updates to board-appointed legislative liaisons.

LEGAL SERVICES

Gain an understanding of the laws that affect the operations of your school corporation through ISBA's legal services, including information provided through workshops and seminars, publications, presentations upon request, and consultation with ISBA attorneys.

POLICY SERVICES

ISBA consults on policy development matters with individual school board members, superintendents, and administrators to complete a legal review of board policies, provide sample board policies, and consult with your board on specific policy matters.

PUBLICATIONS

The Journal is a quarterly magazine published by ISBA to provide our members and the larger education community with updated news concerning policy changes, statewide issues, and events or occurrences of interest.

The e-Dition newsletter is released every month other than those in which The Journal is released. This newsletter contains updates on events, important legislative information, and news concerning Indiana education.

The ISBA School News Daily is a snapshot of school news stories from around the state. Each board member will receive this curated collection of articles in their inbox each morning.

EVENTS

ISBA annually holds 40-50 events to support the professional development of our members including new board member training, our annual Fall Conference, webinars, seminars, workshops, and legislative events.

Our Annual Fall Conference provides an opportunity for school board members to meet and collaborate with leaders in Indiana education, as well as vendors and service members that specialize in fulfilling school corporation needs. Each year we feature a keynote speaker that is a respected member of the education community and their field.
